SECTION ONE – GENERAL RULES AND REGULATIONS

ITEM 100 **LIMITS OF LIABILITY**

No provision contained in this tariff shall limit or relieve the Port of Port Angeles from liability for its own negligence nor require any person, vessel, or lessee to indemnify or hold harmless the Port of Port Angeles from liability for its own negligence.

ITEM 101 **APPLICATION OF TARIFF**

(A) NOTICE TO PUBLIC

This tariff is published and filed as required by law and is, therefore, notice that the rates, rules and charges apply to all traffic without specific notice, quotation or arrangement.

(B) USE OF FACILITIES, DEEMED ACCEPTANCE

Use of wharves or facilities shall be deemed an acceptance of this tariff and the terms and conditions named herein.

(C) RATES SUBJECT TO CHANGE

The rates named in this tariff are based upon ordinary traffic and labor conditions. If and when these conditions change because of demand of labor for increased wages, strikes, congestion, or other causes not reasonably within the control of the Port of Port Angeles resulting in an increase cost of service, the rates are subject to change, on or after effective date filed with the F.M.C. or the charge for service may be assessed on the Man-Hour basis as provided in [Item 402](#).

(D) TARIFF EFFECTIVE

The rates, charges, rules and regulations named in this tariff additions, revisions or supplements thereto, shall apply on all freight received at terminal on or after effective date of this tariff or effective dates of additions, revisions or supplements thereto, provided, however, that when terminal charges have been prepaid at point of origin, at the terminal tariff rates in effect on date of shipping, such rates prevail even though the shipment is received at destination after effective date of the new tariff, revisions or supplements. Unless otherwise specified, all transit freight received at the terminal and undelivered prior to effective dates of tariff, revisions or supplements thereto, shall be charged the rates in effect on the date such freight was received until entire lot or shipment has been withdrawn.

(E) LIABILITY FOR DAMAGE

The vessel assumes liability for damage caused to port facilities by the vessel. Should unusual structures exist, it is the vessel's responsibility to make the necessary arrangements to protect the dock against damage by them.

ITEM 102

RIGHTS OF OPERATION AND AGREEMENT RESERVED

(A) RIGHT OF OPERATION RESERVED

Right is reserved by the Port of Port Angeles to furnish all equipment, supplies and materials and to perform all services in connection with the operation of their facilities under rates and conditions named herein.

(B) RIGHT OF AGREEMENT RESERVED

Right is reserved by the Port of Port Angeles to enter into agreements with carriers, shippers, consignees and/or their agents concerning rates and services providing such agreements are consistent with existing local, state and national law governing the civil and business relation of all parties concerned.

(C) LABOR EMERGENCY

When by reason of strike, boycott, walkout or other condition affecting longshore labor supply or port ability to provide, or permit, necessary functions of labor in connection with the receipt and delivery of cargo on a port wide basis, the Executive Director may declare a period of "Labor Emergency" to exist.

During the period of Labor Emergency, the duration of which shall be fixed by the Executive Director in recognition of the nature of the emergency encountered, the congestion of facilities, duration of labor disruption, accumulation of cargo involved and other similar factors, Free Time (See [Item 206](#)) may be extended, Demurrage Charges (See [Item 109](#)) may be waived. Subject to Notes 1, 2 and 3.

Note 1: The duration of the Labor Emergency in no case may exceed a period concurrent with the period of actual work stoppage and five work days after.

Note 2: Cargo of Free Time shall obtain an extension of that Free Time period equal to the duration of the Labor Emergency.

Note 3: Cargo on Demurrage at the onset of the period of Labor Emergency shall be relieved of the payment of demurrage charges during the period of Labor Emergency and shall instead be assessed Storage Charges for that period. Demurrage status shall be restored with the expiration of the Labor Emergency.

ITEM 103
RESPONSIBILITY

(A) RESPONSIBILITY FOR LOSS, DAMAGE OR DELAYS

The Port of Port Angeles will not be responsible for any loss or damage, caused by fire, frost, heating, dampness, leakage, the elements, evaporation, natural shrinkage, wastage or decay, animals, rats, mice or other rodents, moths, weevils, or other insects, leakage or discharge from sprinkler fire protection systems, collapse of building or equipment, or by floats, logs or piling required in breasting vessels away from wharf; nor will it be answerable for any loss, damage or delay arising from insufficient notification or from war, insurrection, shortage of labor, combination, riots, or strikes or any persons in its employ or in the service of others or for any consequences arising therefrom, except to the extent that any of the aforesaid loss or damage results from negligent acts or omission of the Port, its employees or agents, (Subject to [Item 100](#) herein.)

(B) LIABILITY FOR DAMAGES AND/OR INJURY

If and when others than the Port of Port Angeles are permitted to perform services on the wharves or premises of the terminal company, they shall be liable for the injury of persons in their employ and shall also be held accountable for malicious acts or thefts by themselves or persons in their employ.

The provisions of this item are applicable to all persons, corporations, associations and the like who in any manner come upon or use the terminal facilities, except to agents or employees of the Port. All such person, corporations, associations and the like shall be strictly liable and responsible for damage to property or for damage or injury to, or for the death of, any person or persons, which may be caused or occasioned by any act or omission of such persons or the acts or omissions of their agents or employees. All such persons who come upon or use the terminal facilities shall be deemed to have irrevocably agreed to indemnify Port of Port Angeles for any such loss or damage to persons or property for which a claim is or may be made against the Port, and all such persons shall save and hold the Port harmless from any and all such liability, together with all costs and expenses incurred by the Port in investigating or defending claims therefore, including, but not limited to, court costs, experts fees and attorneys fees.

The indemnification, hold harmless, and non-liability provisions of this section do not apply to losses, damages, or injuries to the extent such losses, damages, or injuries are occasioned by any acts or omission of the Port, its employees or agents.

(Subject to [Item 100](#) herein.)

(A) VESSELS REQUIRED TO OBTAIN ASSIGNMENTS

No vessel will be permitted to berth at a facility of the Port of Port Angeles without having first made assignment and without such an assignment having been granted. Applications for berth assignment must specify arrival and departure times and dates and the nature and quantity of the freight to be loaded or discharged.

(B) BERTH ASSIGNMENT CONDITIONAL

Berth assignments made by the Port of Port Angeles are subject to alteration and revocation in the following conditions:

1. Any vessel assigned a berth for any other purpose than to load or discharge cargo may be ordered to vacate such berth when the Port, at its sole discretion, determines the berth is required for the use of a vessel desiring to load or discharge cargo.
2. Any vessel on berth to load or discharge cargo which, for any reason, experiences a delay in such operations may be ordered to vacate the berth when the Port, at its sole discretion, determines congestion or excessive operational cost is threatened by reason of delay and may be reduced or avoided by the use of the berth of another vessel which is capable of cargo loading or discharge at the berth.
3. Whenever the Port deems a danger of congestion exists any vessel on berth may be required to work cargo around-the-clock or at overtime expense. Should any vessel refuse to comply the Port may order the vessel to vacate the berth.

4. Whenever any vessel occupies a berth provided with special purpose equipment or facilities which are not required to facilitate the cargo operations of such vessel the Port may, when faced with an urgent need to employ such equipment or facilities in connection with a cargo movement fitted to their use, may require the vessel on berth to work around-the-clock or at overtime expense to clear the berth as soon as possible or order the vessel to vacate the berth.

Any vessel ordered to vacate a berth in such circumstances will be assigned another berth if a satisfactory alternate is available or shall be permitted to return to the original berth immediately after the second vessel has completed cargo operations or has vacated the berth for any other reason, provided the conditions which caused the original issuance of the order to vacate are deemed by the Port to exist no longer.

All costs of extra or overtime labor, pilotage, shifting, tug-hire, linesman or those of any description rising from the requirements of the Port under these rules shall be for the vessels account.

ITEM 111 **VESSELS REQUIRED TO MOVE**

(A) ORDERS TO VACATE BERTH

Order to vacate a berth shall provide the vessel with a reasonable period in which to comply. In no case shall such orders require a vessel to vacate in less than 12 hours from the time the order is issued and tendered to the vessel.

(B) PENALTY FOR REFUSAL TO VACATE BERTH

Whenever an order to vacate a berth is made by the Port under these rules and said order is refused or not complied with in the time specified, the Port may assess a penalty dockage rate of \$500.00 per hour for each hour the vessel remains on berth after such order has been issued or tendered to the vessel.

At its option the Port may effect the removal of a vessel from berth at the expiration of the time period specified in the Order to Vacate with all risks, liability and expense for the vessel's account. The alternatives permitted the Port under these rules shall be a choice solely to the discretion of the Port.

ITEM 112 **MANIFESTS REQUIRED OF VESSELS**

Masters, owners, agents or operator of vessels are required to furnish the Port of Port Angeles with complete copies of vessel manifests showing names of consignees or consignors and the weights or measurements of all freight loaded or discharged at the facilities of the Port of Port Angeles. Such manifests must also designate the basis of the weight or measurement on which ocean freight was assessed. In lieu of manifests, certified lists of copies of "boat notes" or mates' receipts containing all information as required above may be accepted.

No services are covered by this charge. Unless otherwise provided, wharfage shall be considered earned and will be assessed whether or not freight received on wharf or wharf premises from cargo, trucks, drays or water carriers is eventually loaded on vessel.

Note: This wharfage definition takes precedence over, and is a departure from the Federal Maritime Commission definition prescribed in 46 Code of Federal Regulations, Part 525, Marine Terminal Operator Schedules, reading as follows: “Wharfage means a charge assessed against the cargo or vessel on all cargo passing or conveyed over, onto, or under wharves or between vessels (to or from barge, lighter, or water), when berthed at wharf or when moored in slip adjacent to a wharf. Wharfage is solely the charge for use of a wharf and does not include charges for any other service.

(B) WHARFAGE ON DIRECT TRANSFER FREIGHT

Unless otherwise specifically excepted, all freight handled direct between transports and vessels will be subject to full wharfage at the regular rates due according to ship’s manifest and the respective traffic and commodity classifications of the freight.

Except as otherwise provided under individual items naming specific “overside” rates, all freight discharged or loaded overside from or to a vessel directly to or from another vessel, bare, lighter or raft or to or from the water while vessel is berthed at wharf or moored in wharf slip, will be assessed one-half the regular rates due according to ships manifest and the respective traffic and commodity classification of the freight.

(D) EXCEPTIONS

Ship’s stores, fuel handled overside vessel and repair materials and supplies, all when intended for vessels’ own use, consumption of repairs, will be exempt from assessment of wharfage unless wharf employees are required to receipt for such supplies or stores as may be received or unloaded on wharf.

Note: Ballast (ballast must be handled overside direct between vessel and barges or scows), dunnage lumber or materials ostensibly not for use in storage of freight loaded at the wharves of the Port of Port Angeles, lining lumber (specifically for use in lining vessels for grain or other bulk

The services include ordinary breaking down, sorting and stacking. Loading and unloading charges are assessed against the freight, except in cases where carriers absorb such charge (Subject to Note).

Note: For the purpose of continuing in effect the historic practice of terminals performing the service, this loading and unloading definition takes precedence over, and is a departure from the Federal Maritime Commission definition prescribed in 46 Code of Federal Regulations, Part 525, Marine Terminal Operator Schedules, reading as follows: “The service of loading or unloading cargo between any place on the terminal and railroad cars, trucks, lighters or barges or any other means of conveyance to or from the terminal facility.

It includes ordinary sorting, breaking down, and stacking on wharf. Unless otherwise excepted, the Port of Port Angeles will perform the service of handling.

Note: For the purpose of continuing in effect the historic practice of terminals performing the service, this handling definition takes precedence over, and is a departure from the Federal Maritime Commission definition prescribed in 46 Code of Federal Regulations, Part 525, Marine Terminal Operator Schedules, reading as follows: "The service of physically moving cargo between point of rest and any place on the terminal facility, other than the end of ship's tackle.

SECTION THREE – MISCELLANEOUS CHARGES

ITEM 301 **DOCKAGE RULES**

(A) DOCKAGE DEFINED

Dockage means the charge assessed against a vessel for berthing at a wharf, pier bulkhead structure, or bank or for mooring to a vessel so berthed.

(B) DOCKAGE PERIOD - HOW CALCULATED

The period of time which dockage will be assessed shall commence when the vessel is made fast to a wharf, or when a vessel is made fast to a vessel so berthed, or when a vessel comes within or moors within a slip; and shall continue until such vessel is completely free from and has vacated such berth or slip.

(C) BASIS FOR COMPUTING CHARGES

Dockage charges will be based upon the overall length of the vessel as published in the most current edition of Lloyd's Register of Shipping at the time the vessel is berthed. Should length figures not be available from the sources, the Port may accept information from the vessel's official papers or measure the vessel.

(D) CONTROL OF VESSELS NOT LOADING OR DISCHARGING

Vessels not engaged in loading or unloading cargo will be docked at a wharf, pier, or seawall structure, or moored to a vessel so docked, or permitted within a slip at the discretion of the Port of Port Angeles and then only with the expressed understanding that vessels shall move their position from such a place at the discretion of the Port of Port Angeles when the wharf, pier or seawall structure, or slip is required for a vessel to load or discharge cargo. Any vessel upon notice to move which refuses or fails to move may be shifted by tug or otherwise by wharf agent and any expenses, damages to vessel or other vessels, or wharf, pier or seawall structure during such removal shall be charged to the vessel so moved.

(E) VESSELS ON LAY STATUS

At the Port of Port Angeles' discretion, vessels may be placed on lay status, which may include vessels waiting to discharge and/or load cargo. These vessels may be permitted to moor at a vacant berth, when such berth is available. Charges for vessels on lay status shall be 25% of the applicable dockage rates published in this tariff per 24 hour period or portion thereof.

At the Port of Port Angeles's discretion, vessels not actively working, not undergoing repairs, alterations or cleaning, requesting extended lay status of (10) ten consecutive days or more may be granted a special lay status at an idle berth when such berths are available. Such vessels will be charged at a rate of \$1.78 per foot in length overall (LOA) per 24 hour period or portion thereof.

(F) VESSELS MAKING REPAIR OR ALTERATIONS

Vessels at berth over 375 feet in length overall (LOA), making alterations or repairs, shall pay dockage of \$3.80 per foot in length overall (LOA) per day. After the first 24 hours at berth, vessels will be charged at one-half ($\frac{1}{2}$) the applicable rate per 12 hour period or portion thereof.
