Holly –

Please post this email to public communication section regarding JWM. I am not familiar with this individual, but if he does call back we will direct him to our website just like everyone else.

Thanks - John

Subject: JWM inquiry

Karen,

You may remember Arvin Vander Veen, the industrial broker from Colliers that we interviewed last year. He called today checking in about the 1010 building status but primarily asked about JWM. He has clients on the east coast asking about buying or leasing the facility. I told him there has been recent commission action setting aside a time period for considering RFI's and that any additional information would have to come through you. He may call at some point, just wanted you to have a heads up.

Cheers, Dan
