Serial No. 2025-07

Dear Log Yard Clients,

As in previous years, the Port of Port Angeles reviews its results of our log yard operations, and with many of you, we continue to see impacts from tariffs, supply chain, and fuel pricing challenges. Due to these factors and rising operating costs, all rates at the Port of Port Angeles log yard will be adjusted accordingly. The Port has delayed implementing necessary rate increases related to equipment maintenance, wage adjustments, petroleum prices, environmental fees, and overall operational expenses.

We are conscious that we are all in this together, and as many of you are adjusting your costs, expenses, and plans, we must do the same. These rate increases are necessary for the Port to continue to deliver high-quality service you can depend on. The adjusted rates will go into effect on October 1, 2025

The Port sincerely values each of you as clients, and we remain committed to carefully balancing our future rate adjustments while delivering the highest standard of service.

We look forward to your comments and feedback, and please, feel free to contact me at (360) 670-8062.

Sincerely,

Wilson Easton
Facilities Manager
Port of Port Angeles
